Explanation	Screenshot
16. Choose Save.	
<div><div></div><div>Note: you have now configured the destination, you will now configure the same in your SAP Build Apps.</div></div>	
17. Choose Control Tower.	

Explanation	Screenshot
18. Choose Destinations.	 <p>The screenshot shows the SAP Build Control Tower interface. In the left sidebar, 'Control Tower' is selected. The main area displays 'Tenant Configuration' with a grid of tiles. The 'Destinations' tile is highlighted with an orange box and a yellow circle containing the number 18. Other tiles include 'Mail Server', 'SAP Cloud ALM', 'External Authentication', 'Agents', 'Agent Groups', 'Agent Attributes', 'Mass Registrations', 'Agent Update', and 'External IP Safelist'.</p>
19. Choose New Destination.	 <p>The screenshot shows the 'Destinations' page in SAP Build Control Tower. At the top, there are filters for 'Type' and 'Authentication Type'. Below the filters is a table with columns: 'Name &amp; Description', 'Type', 'Host Address', 'Authentication Type', and 'Actions'. A yellow circle with the number 19 points to the 'New Destination' button in the top right corner of the table area. Below the table, a message states: 'Looks like there are no entries yet. When there are, they'll show up here'.</p>
20. Choose SalesOrderS4Sandbox.	 <p>The screenshot shows the 'Destinations' page with an 'Add Destination' dialog box open. The dialog box has a search bar and a list of destinations. One destination is selected and highlighted with an orange box and a yellow circle containing the number 20. The selected destination is 'SalesOrderS4Sandbox (HTTP)' with the URL 'https://sandbox.api.sap.com/s4hanacloud/sap/opu/odata/api/SALES_ORDER'. The dialog box also includes a 'More Information' link and 'Add' and 'Cancel' buttons at the bottom.</p>

Explanation	Screenshot
21. Choose Add.	
<div><div></div><p>You have now called a remote system APIs using actions in a process.</p></div>
